A High-Powered Four-Hour Workshop Focusing on New Tools
Designed for Commercial Real Estate Brokers

Monday, June 27, 2005
1:00 - 5:00 pm
Anaheim Convention Center

PRESENTED AT **REALCOMM 2005 ANAHEIM**

A 4-hour seminar showing you the **power technology solutions now available** to you as a Commercial Real Estate Brokerage Professional

See **the latest tools** to have you achieve maximum efficiency, effectiveness and competitiveness in your brokerage business

Learn the systems other top brokerage professionals are utilizing to give them a huge competitive edge in their marketplace

And, most importantly, **learn how to implement these systems** and approaches in your own business to begin making more money immediately!

Here's what you'll learn during this 4-hour information-packed seminar:

The amount of time you may currently be wasting in your real estate business---Learn how to be more effective with your time and you'll begin making more money immediately.

Transaction Platform Software--Learn how this new tool is revolutionizing the industry and how much it will increase your productivity.

Contact Management Systems--Are you utilizing the same old system you've been using for years? Or are there much better systems now available for you in your business? Learn what's available in the market today and make the decision that's best for you.

Wireless Communications--There's a revolution in wireless communications going on! Learn about the latest tools available to save you time, communicate better with your clients and prospects, and make you more money in your real estate business.

Plus--The Next Generation in Real Estate Brokerage, Tech Tips for the Mobile Warrior, Top 10 Digital Tools for Commercial Agents, Top Producer War Stories and Recommendations, Hiring and Working With Virtual Assistants, Adding Audio and Video to Your Web sites and E-mail, and the opportunity to see and test these products firsthand in the Exhibit Hall.
